Stringintro.java

```
1 package String_strngBuffer;
2
3
4 public class Stringintro {
5
6     public static void main(String[] args) {
7         String str="hello";
8         String str1="hello";
9         System.out.println(str==str1);
10        System.out.println(str!=str1);
11        String str2=new String("hello");
12        String str3=new String("hello");
13        System.out.println(str2==str3);
14        System.out.println(str2!=str3);
15        System.out.println(str2.equals(str3));
16        System.out.println(str2.compareTo(str3)==0);
17
18    }
19
20 }
21
```
